This week fishing has been great again with a lot of anglers bagging up, this is because of the colder conditions we have been having we have had the first hard frost of the year on the weekend which is great for fishing as the water temperature is really cold at the moment, because it has been so cold most anglers have been catching fish using either intermediate line or sinking line to reach the fish as they are down deep but when the sun gets on the water and the water warms up a degree or two floating line has picked up some nice fish. Dave Blake caught a cracking brown which weighed approximately 7-8lb in weight he caught it on a brown snake it took him around 10 minutes to get in but the brown was safely returned back into the lake, Mike James who fishes catch and release caught a cracking rainbow which weighed approximately 9- 10lb in weight he caught it on a greyling bug the rainbow was safely returned and Graham Davies who fishes catch and release caught cracking rainbow which weighed approximately 10lb in weight he caught it on a cats whisker the rainbow was safely returned. There have also been a lot of blues being caught lately which are superb quality fish the anglers are reporting back how hard the blues are fighting and how nice the blues are, there have also been a few anglers that have been snapped of by big fish or have lost a nice fish at the net. Best flies have been cats whiskers, red spider, blue flash damsel, black buzzer, white buzzer, black snake, brown snake, shammy leathers, hothead damsels and also lime green buzzers.

The lake will be closed this Sunday the 26th of January 2020 for our first Winter League Competition sorry for any inconvenience this may cause but we are open on Saturday the 25th of January as normal.

FLY:

Rob Morgan	3 fish	9lb 3oz	caught on black buzzer.
Howard Evans	4 fish	12lb 7oz	caught on a hothead damsel.
Bryn Morris	3 fish	14lb 9oz	caught on a green fritz.
