Report Week beginning January 23rd 2017

This week we have had quite hard frosts and very cold weather but the lake remains ice free. Even though we have had freezing cold conditions the fishing has been steady with quite a few anglers bagging up, most anglers have been using floating lines because fish are not feeding very deep at the moment and have been caught about four feet down. Anglers are having some cracking sport at the moment whether they are catching a 3lb rainbow or a double figure fish all fish are fighting hard. Dennis Morris caught a cracking 12lb rainbow on a gold head damselfly, Paul Davies caught a superb rainbow weighing 11lb caught on an olive goldhead, Josh Moray caught a superb 6lb rainbow on a white buzzer, Darren Lewis caught a lovely 6lb 12oz rainbow on a hothead damselfly and Paul Davies caught a cracking 11lb 2oz rainbow on a green and white fritz. Best flies of the week have been buzzers, hothead damsels, black and green montanas and dawl bachs. The lake will be closed this Sunday the 29th of January for our first competition of the winter league series which is sponsored by:

Trinity Nursing services.

For info

Winter Series Sunday Competition 2017 Dates January 29th February 12th 26th March 12th
